INDIGOM

DENIM YARN / ROPE DYE

## DENIM YARN / ROPE DYE

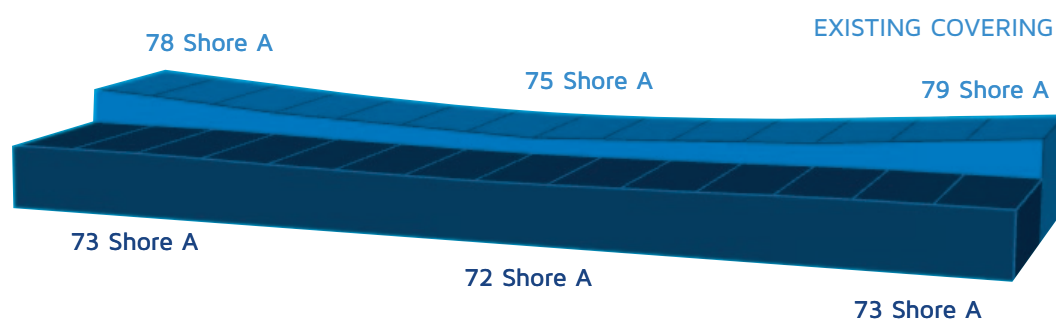

INDIGOM is a special black compound designed for Indigo yarn and rope dye. The Hardness is from 65 Shore A to 75 Shore A. Its excellent elastic recuperation and outstanding chemical resistance ensures homogeneity on denim dye application.

Important features of Indigo dye rolls:

- » Long service life.
- » Excellent elastic recuperation.
- » Excellent wear and cut resistance.
- » Maintain hardness for a long term.
- » Reduce the times of re-grinding.

HARDNESS PROFILE ON INDIGO DYEING ROLLER AFTER 1 YEAR WORKING  
(initially both rollers at 70° Shore A)
